

HUMIDIFIERS, DEHUMIDIFIERS AND EVAPORATIVE COOLERS

Humidity Control and Evaporative Cooling

A COMPREHENSIVE PRODUCT RANGE

Condair offers a complete range of air humidification and dehumidification systems. Being able to select from every available technology allows Condair to closely meet every project's individual needs with the most suitable product.

STEAM HUMIDIFIERS

Condair EL
Electrode boiler humidifier
Reliable steam humidification that is easy to install, use and service.

Condair RS
Resistive humidifier
Innovative scale management and no disposable boiling cylinders.

Condair CP3 Mini
Low capacity electrode humidifier
Up to 4kg/h of steam direct to a room or to an AHU.

Condair GS
Gas-fired humidifier
Steam humidification with the operating economy of gas.

Condair ESCO
Live steam humidifier
Uses a building's existing hygienic steam supply.

Condair SE
Steam-to-steam humidifier
Uses a building's impure steam supply to create pure humidifying steam.

ADIABATIC HUMIDIFIERS

Condair ME
Evaporative in-duct humidifier
 Provides low energy humidification and evaporative cooling.

Condair DL
Hybrid in-duct humidifier
 Close control, spray and evaporative humidifier.

Condair HP
High pressure in-duct humidifier
 Spray humidifier delivering humidification and evaporative cooling to multiple AHUs.

NKBD Series
Ultrasonic in-duct humidifier
 Cool mist humidifier delivering up to 25kg/h from a single unit.

Condair JetSpray
Compressed air and water spray humidifier
 Direct room spray humidifier with rapid evaporation and highly directional aerosols.

ML System
High pressure in-room humidifier
 Water treatment and pressurisation plant with a selection of direct air nozzle systems.

Draabe NanoFog
High pressure in-room humidifier
 Discrete and quiet direct air humidifier, ideal for public places and offices.

Condair US
Ultrasonic in-room humidifier
 Very low energy cool mist humidifier with fan unit.

DEHUMIDIFIERS

Condair DA

Desiccant dehumidifier

Ideal for drying at low temperatures or when low humidity levels are needed.

Condair DC

Condensing dehumidifier

Ideal for drying down to around 50%RH and at temperatures above 15°C.

Condair DP

Swimming pool dehumidifier

A comprehensive range of dehumidifiers for small to large commercial pools.

OTHER PRODUCTS

Condair RO

Water treatment system for humidifiers.

Condair OptiSorp

Rapid evaporation steam distribution system.

Defensor PH

Mobile evaporative Humidifier/air purifier

A Comprehensive Service

Advice – Design – Manufacture – Supply – Commissioning – Maintenance – Spares

Expert advice and system design

Free guidance on best practice in humidity control, product strategy, selection and sizing.

Installation and commissioning

Delivering the manufacturer's expertise on-site for optimum system set-up.

Experienced humidifier technicians

Providing reactive or planned preventative maintenance agreements.

Spares department

Experienced staff help you identify which part you need and get it to you quickly and efficiently.

Global Expertise, Local Solutions

Condair has manufacturing facilities in Asia, North America and Europe, as well as sales operations in 20 countries and distributors in over 50 more.

The company has been serving global industry and commerce for over 80 years and is highly experienced in creating the ideal environment for improved manufacturing efficiency, human health or preservation.

With continuous investment in product development, Condair maintains the world's most advanced range of humidity control systems. Ongoing product innovation ensures Condair's products offer the lowest possible energy consumption, provide users with low maintenance operation and the highest possible technical performance.
